NEW ZEALAND ALPINE GARDEN SOCIETY

2018 Seed List

We would like to thank all those who have helped maintain the Seed List as one of the major factors contributing to the enjoyment and stimulation for members of N.Z.A.G.S. MPI restrictions make it even more important that seed is collected and plants conserved. Some overseas donated seed may not be listed as it is not on the current MPI list of permitted plants, therefore has been confiscated. No plant without species name is accepted eg, Arisaema sp. or Pulsatilla 'Eva Constance' must be listed Pulsatilla vulgaris 'Eva Constance'.

Seed originates from many sources throughout the world and cannot be guaranteed true to name. Every effort is made to ensure correct listings, however seed from cultivars and hybrids cannot be relied upon to come true and plants raised from cultivar seed should not be labelled with the names of those cultivars. Neither the New Zealand Alpine Garden Society or any official of the Society can be held responsible for what is supplied.

PLEASE READ THE APPLICATION FOR SEEDS INSTRUCTIONS BEFORE FILLING ORDER FORM.

The orders are date-stamped on arrival and then dealt with in the following order:

Overseas donors
NZ donors and packeters
Overseas non-donors
NZ non-donors

Address labels are NOT required.

The society pays for postage for overseas members.

NB: Donors entitled to 10 extra packets need to have contributed 7 or more packets of seed. Once again it has been possible to bring the seed list to you thanks to the seed contributors, and packeters and the distribution team. Best wishes to all seedaholics. Please notify us if seed grown has been incorrectly named or if plant names, as listed, are incorrect. Some seed, as always, is in short supply. Please ensure that as many choices as possible are listed. Early response is recommended. Best of luck with your application and success with your seed raising.
